What is Born to Age?

Born to Age provides up-to-date, useful information and relevant, thought provoking articles for the older adult community through locally targeted directories and information kiosks that help them live better lives.

How is Born to Age distributed?

Born to Age is distributed via: public libraries, senior centers, hospital discharge planners, social workers, senior residential communities, older adult events and health fairs, hospital health education centers and into the hands of children with aging parents who call us seeking advice everyday. 15,000 copies are distributed in every county we serve, all year long. This is an annual publication. All advertising charges are one-time only. Born to Age is a free resource for everyone. We are supported solely by our industry.

What is an Information kiosk and why would I participate in this program?

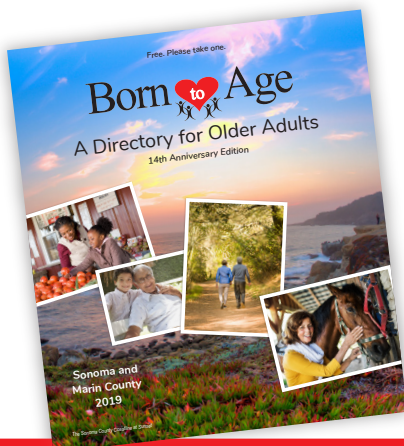

Born to Age kiosks are public displays that feature the brochures of organizations that help older adults. Placed in high traffic locations, they provide brand exposure and company recognition needed to guide customers to your services in their time of need. You just send us your brochures, and we maintain them for the duration of your subscription to the program. Did you know a logo or name must be seen 7 times before people classify it as "familiar"? Let us help you get that exposure!
